## Standalone H.264 USB Recorder / Player

### H.264 + AAC in 1080p

Using H.264 and AAC compression, the HDR-1 records video files in 1080p which are instantly ready to upload to your website or social media outlets, such as Facebook, Youtube, and more. Simply record your show, then connect your USB drive to a computer, and start uploading.

### Small footprint for portability

Thanks to its small (219x210mm) footprint, the HDR-1 is convenient for both field and studio recording.

## USB 3.0 Compatibility

The HDR-1 is compatible with most modern USB 3.0 file storage devices, including thumb drives, hard-disk drives, and portable SSD drives. (See our list of tested and approved drives.)
