

X360 Dual Lens VR Camera

Product Details

Featuring dual lenses, the X360 is the ultimate user friendly 360° camera. Use the smartphone app to control the X360 remotely and preview your shots to always get the perfect footage.

More In Depth

Never miss a single frame!

Capture the world through dual lens

Explore the world unlike never before; in full 360 degree views. Capture unbelievable vision through the X360 dual lens, relive your experiences in virtual reality or share your footage for the world to see on YouTube and Facebook. The front and rear lenses each capture 180 degrees horizontally and vertically, creating a seamless and complete 360-degree field of view.

Make your own Virtual Reality HD Videos

The X360 videos are watchable through the VR-X Headset. Because of this, the X360 could be just what content creators need to start making quality 360-degree video.

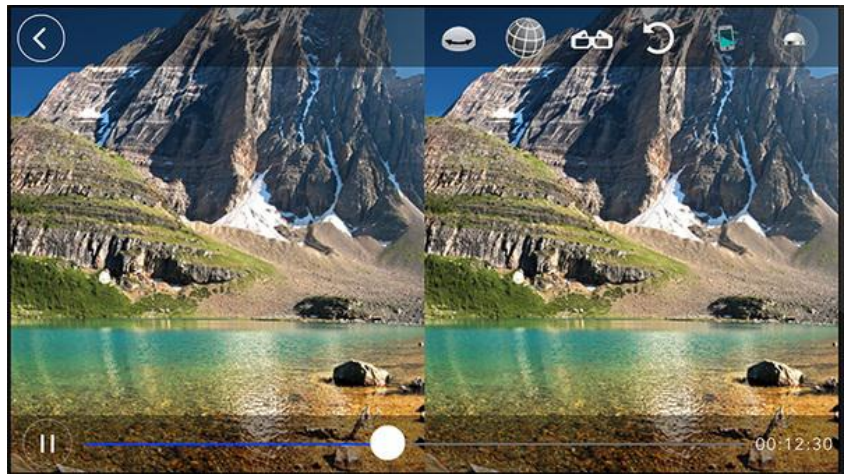

Pair up your smartphone via WiFi

The Kaiser Baas X360 app allows you to control your camera just like a remote control. You can watch, pan around and share your content from your smartphone or tablet.

Stereoscopic mode for VR Headsets

Immerse into the world of Virtual Reality

Share your 360 videos on Youtube and Facebook

Youtube and Facebook support uploading and playback of Interactive 360° Videos.

Light weight design

Compact in design and light weight, the X360 Dual Lens VR Camera's dome shaped lenses allows the user to record footage in 360-degree panorama mode, ensuring you to capture every moment, of every experience, from every conceivable angle.

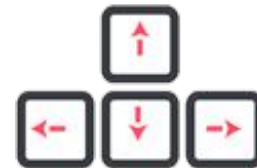

Flexible Tripod

Capture incredible shots easily using the included accessories.

Pan around on your computer screen through the Video Player Application

The Video Player application allows you to pan around whilst you are watching the interactive 360 Videos.
