## **The First Certified Thunderbolt 3™ Tape Drive in the World!**

Apple and Intel Certified for MAC and PC.

MagStor TRB3-HL8 Desktop LTO8 12TB LTFS Tape Drive with Thunderbolt™ 3 Interface

### **Overview**

The MagStor TRB3-HL8 features an LTO8 tape drive with a 3.5" SATA HDD connected via a Thunderbolt™ 3 / USB-C port as a convenient connection to your desktop MAC or PC computer.

Taking advantage of LTFS (Linear Tape File System), users can easily drag and drop files to and from an LTO8 tape drive for 12TB of native capacity.

Thunderbolt™ 3 devices are fully backwards compatible with previous generations of Thunderbolt™ technology. We recommend the Apple MMEL2AM/A adapter with those using older Thunderbolt™ ports.

### **Features**

**12TB LTO8 Tape Drive**

**300 MB/s Read/Write Speeds**

**3.5" HDD Tray-less Hot-Swap Dock (Tested up to 12TB HDDs)**

**LTFS Compatible Drag & Drop**

**30 Year LTO Media Archive Life**

**Built-in PSU, no bulky adapters needed**

**2x Front Facing Thunderbolt™ 3 Ports**

**TAA Compliant (Tape Drives Made in Japan)**

**3 Year Warranty (Upgrade to 5 Years US/CAN)**
