Shape The FutureOf Live Selling

yololiv.com/yolomax

Elevate Your Stream with Multiple Angles.

Showcase the products from different angles by connecting multiple cameras that adjust with beautiful layouts. YoloMax supports 2 HDMI In ports and 1 USB In port for closeup & wide-angles to create the best viewing experience for the shoppers.

Create Engaging Background with Chroma Key.

Professional level green screen effect made easy with YoloMax. No complicated techniques required. With just a few taps, you can easily set up a virtual background and change it during the stream according to the topic, your script, or the response from your audience.

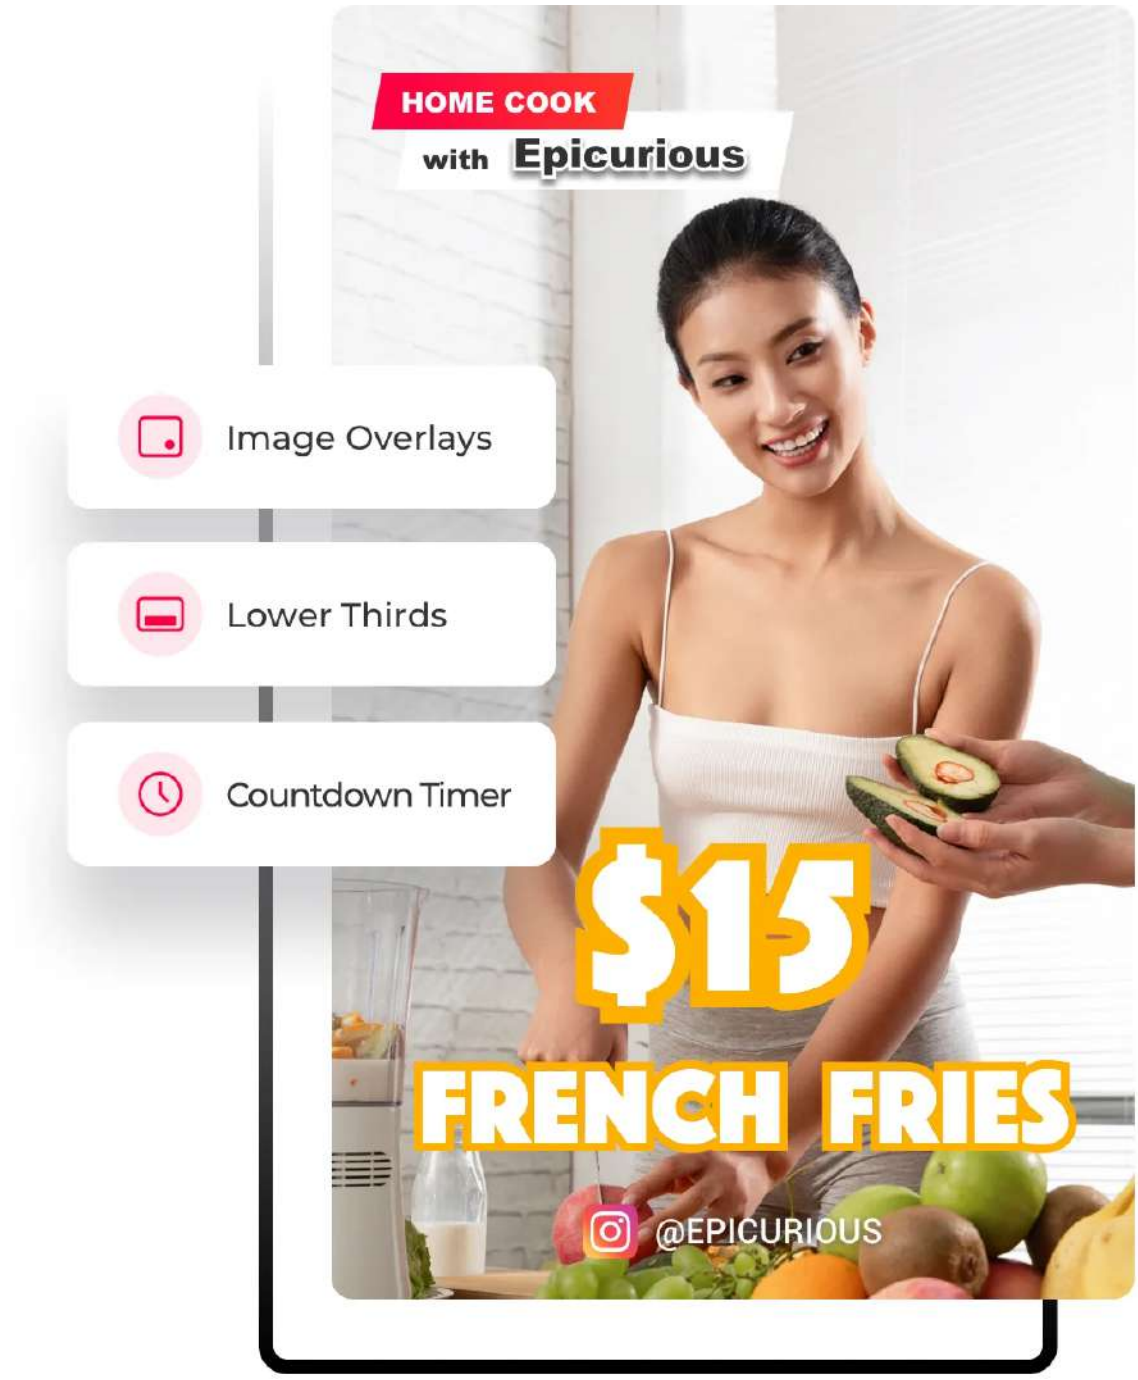
Restore Default Setting



Stand Out with Various Graphic Overlays.

Brand your live streams like a pro with a bunch of built-in graphic overlays like lower-thirds, images, watermarks, custom logos, countdown timers and more. Graphics add a professional and polished look to any live stream and help you stand out from your competitors.

Amplify Your Sales Event After the Stream.

Record and edit your live streams and turn them into short shoppable videos that you can share everywhere. Reach new audience without having to create new content from scratch. Live stream ends, but your sales can continue.

WHY YOU NEED YOLOMAX

Qualcomm 8 Core CPU

Expand the possibilities of connected computing and represent the ultimate in performance, power efficiency.

WiFi, Ethernet & 4G

Support Wi-Fi, Ethernet, and cellular data that provide stable network, so you don't have to worry about losing connection during streaming.

Multiple Control

Use the supplied wireless keyboard, or your own wireless mouse or touch control at your fingertips.

32 Inch Monitor

See clearly the comments from your audience and engage with them lively, even you are 1-2 meters away.

Multi-Cam Prodution

Connecting 2 HDMI and 1 USB camera and switch quickly between those shots for the best viewing experience.

Built-in Apps

Integrates main Apps including video, e-commerce and social media platforms so you can directly log in and start streaming.

Chroma Key

Seamlessly add different backgrounds or locations for your live productions with the Built-in Chroma Key in a few taps.

Vertical & Horizontal Flip

Flip video vertically or flip video horizontally for HDMI and USB port so the stream will look good to viewers (not mirrored).

Graphic Overlays

YoloMax has built-in graphic overlays like lower-thirds, images, watermarks, custom logos and countdown timers to create a professional look.

External Microphone

Connecting a microphone through the Line In/Mic In port or sound card via USB-C port to provide high-quality playback.

Custom PIP

Add a picture-in-picture (PIP) effect to your live stream to feature a speaker during a presentation or and highlight key parts of your broadcast seamlessly.
